

The Greater Columbia Chapter of the American Guild of Organists presents

PIPE ORGAN DISCOVERY DAY

with

STEPHEN SPAKE, PIPE ORGAN BUILDER*

WHEN? Saturday, October 19, 10:30 a.m. to 12:30 p.m.
with pizza from 12:00 to 12:30.

WHERE? Episcopal Church of the Good Shepherd
1512 Blanding Street; Columbia SC 29201

WHO IS INVITED? Anyone, young or old, who wants
to learn about pipe organs.

What are all of those pipes for? How does the organ make all of those different sounds? Stephen Spake of Lincoln Pipe Organs will help us answer these questions and more using Good Shepherd's beautiful Petty-Madden mechanical action pipe organ. Then he'll help our younger attendees build a small pipe organ from a kit. They can bring a short piece of music to try out on the instruments. There will be pizza for everyone at noon. We hope you can join us for a fun morning of learning!

** Stephen Spake began his career as a full time tuning and maintenance technician, developing his skills as an organ builder by rebuilding and redesigning instruments of all types and makes. Stephen has been with John Dower and Company (now Lincoln Pipe Organs, Inc.) for 20 years, and continues his career of building and maintaining these wonderful instruments. He is devoted to helping young people develop an understanding of and interest in pipe organs.*
